

COMPANY PROFILE 2019

About us

Pegasus Flight Center is the largest light aircraft maintenance facility on the island of Cyprus. We operate a number of aircrafts which we charter for our customers and we also offer complete maintenance packages for light aircrafts at our base in Larnaca International Airport.

Pegasus Flight Center is currently also the only holder of the EASA Part 145 License approved by the Republic of Cyprus Department of Civil Aviation for the operation of maintenance on light aircrafts.

We are here to serve light aircraft operators not only from Cyprus but the whole eastern mediterranean region with line maintenance issues as well as any repairs.

Pegasus Flight Center can provide a full maintenance package on the aircraft including cleaning services and refueling. We also offer our passenger handling service such as assistance on arrival , Meet & Greet Services, transfer to and from the airport and hotel accomodation.

Weather you are here for business or pleasure you can rely on our experiance and expertise to ensure that you recieve a cost effective, high quality, tailored service to fit your needs from the point of arrival to the point of departure.

Aircraft Cleaning Services

Pegasus Flight Center offers professional cleaning services for any aircraft that is stationed or visits Larnaca airport.

Whether you require external cleaning for any type and size of aircraft or internal deep cleaning we are here to serve you.

Maintaining the aircraft is an essential aspect which should be done on a regular basis as aircrafts are subjected to oil spills, air pressure and other environmental disasters.

Our experianced team along with our washing systems will ensure that every surface inside and out of the aircraft to be in immaculate condition.

If you are visiting the Airport we will be happy to arrange for a customised cleaning session to take place while your aircraft is based there .

Our Aim

*“To ensure your aircraft is treated as
one of our own”*

Refueling Aircraft Services

Pegasus Flight Center is the only company within Laranca Airport that can provide you ground fueling support which has been licensed and approved by Hermes Airports.

In coordination with the respective airport and our customer's requests, we plan our refuelling operations in such a manner as to ensure that they are carried out fast, cost-efficiently and in a forward-looking manner.

For you as our customer, our primary focus is on your particular needs. Our staff are trained to identify requirements and needs at an early stage and to meet them comprehensively. We consistently and systematically take steps to ensure safety at work, health protection and that equipment and vehicles are in immaculate condition.

While aircraft refuelling is largely standardized, we at Pegasus Flight Center guarantee most importantly safety through tried-and-tested, standardised procedures that are both speedy and reliable.

Safety

“Our Number One Priority”
